Our Homestead Series is a collection of traditionally styled, “right-sized” house plans that embrace the solid and practical needs of hard working American families—those who want to build an efficient and value-designed home to meet both their present needs and long term expectations.

Homestead plans are designed to be built economically and within your budget considerations while retaining high standards for energy efficiency or material quality. Your new home will include quality cabinetry, interior trim, windows, exterior doors and siding for low-maintenance, reliable performance and lasting value.

Thank you for considering a Homestead Series home by Ritz-Craft. We look forward to making your new home the next and most important home we build.
